

Bausch Health's Aesthetics Business, Solta Medical, Announces the Launch of Clear + Brilliant® Touch Laser in Canada

February 23, 2026

LAVAL, QC, Feb. 23, 2026 /PRNewswire/ -- Bausch Health Companies Inc. (NYSE:BHC) (TSX:BHC), a global, diversified pharmaceutical company, and Solta Medical, a global leader in medical aesthetics, today announced the launch of the Clear + Brilliant® *Touch* laser in Canada. The device was approved by Health Canada on May 20, 2025, marking an important milestone as demand for non-invasive skin rejuvenation treatments continues to grow across Canada. With this approval, Canadian physicians are able to offer one of the most advanced dual-wavelength laser technologies on the market, expanding access to customizable treatments that align with the country's growing preference for effective yet approachable skin rejuvenation options.

"The Solta business continues to expand its global presence through its diverse and well-established portfolio that supports the growing demand for high-quality aesthetics solutions," said Thomas J. Appio, Chief Executive Officer, Bausch Health. "Canada is an important part of that growth, reflecting strong and sustained interest in the aesthetic market across the country."

Building on the successful U.S. launch of the Clear + Brilliant *Touch* System in 2021, the device's innovative design allows for seamless use of two handpieces with unique wavelengths to deliver comprehensive treatments that help reveal smoother, more radiant, youthful-looking skin. The System is suitable for all skin types, a wide range of ages, can be used year-round (at the discretion of the treating physician) and is recognized for its ease of use, minimal downtime and gentle and effective results.

"Expanding the availability of the Clear + Brilliant *Touch* System into Canada marks a significant step forward for Solta Medical and its commitment to global expansion of our innovative portfolio of products in skin health," said Jiny Kim, Senior Vice President, Solta Medical, Bausch Health. "This launch reinforces Solta's leadership in supporting both providers and patients with technology that delivers safe, effective and customizable results."

Clear + Brilliant® *Touch* Laser Indications (Canada)

The Clear + Brilliant® *Touch* System is indicated for use in dermatological procedures requiring the coagulation of soft tissue and general skin resurfacing. The system includes two distinct fractional laser handpieces, each with its own indication:

1440 nm Handpiece

- Indicated for the treatment of and improvement in the appearance of:
 - Wrinkles
 - Dyschromia
 - Pigmentation
 - Skin texture
 - Pore size

1927 nm Handpiece

- Indicated for the treatment of and improvement in the appearance of:
 - Wrinkles
 - Dyschromia
 - Pigmentation
 - Skin texture
 - Enhancement of skin permeability
 - Pore Size

About the Clear + Brilliant® Touch Laser

Solta Medical's Clear + Brilliant® Touch laser is now available in Canada, joining the Clear + Brilliant® portfolio. Supported by robust, evidence-based data, including more than 15 clinical studies, the Clear + Brilliant® laser platform uses fractional laser technology to create structural and functional changes in the skin. In Canada, these treatments help address early signs of aging, maintain youthful-looking skin, and improve the skin's overall appearance.

Since 2011, the Clear + Brilliant® platform has helped define the laser-treatment landscape across global markets.
