Bausch Health Announces Launch of Solta Medical's Fraxel FTX™

The next generation of skin resurfacing technology will debut at the ASLMS 2025 Conference

LAVAL, QC, April 25, 2025 – Bausch Health Companies Inc. (NYSE:BHC)(TSX:BHC), a global, diversified pharmaceutical company, and its aesthetics business, Solta Medical, announced today Fraxel FTX™ will launch at the American Society for Laser Medicine & Surgery, Inc. (ASLMS) 2025 Annual Conference on April 25 in Orlando, FL. This event begins the rollout of Fraxel FTX™ to dermatologists, plastic surgeons, and other licensed aesthetic professionals across the United States, with plans to expand globally in the coming months.

Fraxel® is a leading treatment in skin rejuvenation, addressing common skin concerns such as sun damage, wrinkles, acne scars, and pigmentation irregularities. With the introduction of Fraxel FTX™, the next generation of skin resurfacing technology, Bausch Health is setting a new standard in laser skin resurfacing. Designed to offer an even more precise, efficient, and comfortable treatment experience, this next generation product provides dermatologists and aesthetic professionals with advanced tools and is designed to deliver noticeable results after a single treatment in all skin types.

"We are pleased to unveil Fraxel FTX™ at the ASLMS 2025 Conference," said **Thomas J. Appio, CEO of Bausch Health**. "This improved technology marks a significant milestone in our commitment to advancing aesthetic medicine and enhancing the patient experience. Fraxel FTX™ embodies our dedication to providing healthcare professionals with the cutting-edge tools they need to help deliver exceptional care."

"Fraxel FTX™ retains its trusted, proven laser technology offering customized treatments to deliver noticeable results, while combining a modern design, ergonomic enhancements, and efficiency to support today's aesthetic practices." said **Jiny Kim, Senior Vice President, Solta Medical, Bausch Health**.

Key Features and Benefits of Fraxel FTX™:

- **Dual Wavelength Fractional Laser:** Fraxel FTX™ utilizes a highly refined fractional laser system that targets aging and sun-damaged skin, leaving surrounding healthy tissue intact to promote rapid healing. The 1550 nm erbium-glass laser and 1927 nm thulium laser treat superficial and deeper skin layers.
- **Redesigned Ergonomic Handpiece:** Featuring a 20% reduction in weight and size and new integrated cooling technology, Fraxel FTX™ is designed for patient comfort during treatment.
- **Visible Results with Minimal Downtime:** Patients can expect noticeable improvements in skin texture, tone, and clarity with minimal disruption to their daily routines.
- **Fast Tracking Experience:** Intelligent Optical Tracking® with AccuTRAC™ provides efficient and consistent treatment delivery utilizing patented technology for efficient firing of the laser.

- **Redesigned Console:** A modern design with an integrated arm and cable assembly.
- **Refreshed User Interface:** The redesigned color touch screen and user interface are designed for flexible, personalized treatment settings, catering to aesthetic goals, as well as common skin concerns due to sun damage and aging.

With the launch of Fraxel FTX™, Solta Medical continues to lead the industry in innovation, providing solutions that aim to help practitioners deliver best-in-class results while improving patient satisfaction.
