Bausch Health Launches YUN Probiotherapy™ ACN Skincare Line in Poland

New probiotic and prebiotic skincare products offer a natural and effective solution for managing acne-prone skin.

- Following the partnership announcement with YUN NV, Bausch Health has introduced the YUN ACN skincare line in Poland, featuring probiotic and prebiotic formulations designed for acne-prone skin.
- The product range includes YUN ACN Repair Cream, Wash gel, and Micellar water, all supporting the skin's natural microbiome without the drawbacks of traditional acne treatments.
- Recent scientific research demonstrates that incorporating probiotics into skincare significantly reduces pimples without side effects¹, offering a natural and innovative alternative.

LAVAL, QC, September 1, 2025 – Bausch Health Companies Inc. (NYSE:BHC)(TSX:BHC), a global, diversified pharmaceutical company, today announced the launch of the YUN ACN skincare line in Poland, offering probiotic and prebiotic formulations designed for acne-prone skin. Following Bausch Health's partnership announcement with YUN NV last June, YUN Probiotherapy™ ACN products are now available in pharmacies across Poland. The skincare product range includes YUN ACN Repair Cream, Wash gel, and Micellar water, all supporting the skin's natural microbiome.

Building on the latest advancements in microbiome science, the YUN ACN line offers a suite of products tailored to support healthy skin. The YUN ACN Repair Cream is a probiotic face cream that helps restore the skin's natural microbiome balance and improves hydration. The YUN ACN Wash is a prebiotic cleansing gel that gently cleanses the skin and supports the skin's good bacteria, and the YUN ACN Micel is a prebiotic micellar cleaning water that effectively removes impurities.

"We are excited to bring the YUN ACN probiotherapeutical skincare line to the Polish market", said **Cees Heiman, Senior Vice President, Europe and Canada, Bausch Health**. "These next-generation dermatological products leverage groundbreaking microbiome science for natural and effective management of acne-prone skin. This launch underscores our dedication to bringing innovative, science-driven solutions to more people worldwide."

A recent study published in the scientific journal *Cell Reports Medicine* demonstrated the powerful effect of probiotics incorporated into a skin cream through microcapsules. The findings showed the skin cream with microcapsules containing probiotics significantly reduced pimples without any side effects. ¹ The YUN ACN skincare line offers a safe and effective alternative to traditional acne treatments.

"At YUN, we embrace good bacteria to support healthy skin. Our novel microcapsule technology keeps these helpful bacteria alive in our ACN skincare products, helping to naturally reduce pimples and impurities. This groundbreaking method offers a safe alternative to traditional ones," explained **Ingmar Claes, Chief Scientific Officer, YUN NV**.

To learn more about the YUN ACN products available at select pharmacies across Poland, please visit yun-probiotherapy.com.
