Bausch Health Partners with YUN to Bring Pioneering Microbiome Skincare to Poland

This strategic partnership introduces new probiotherapy solutions for managing acne-prone skin to the Polish market, with plans for future expansion.

LAVAL, QC, June 23, 2025 – Bausch Health Companies Inc. (NYSE:BHC)(TSX:BHC), a global, diversified pharmaceutical company, announced today it has entered a strategic partnership with YUN NV, an innovative leader in microbiome skincare solutions. This collaboration is set to transform the skincare landscape, starting with the launch of YUN's probiotic-based products for acne-prone skin to the Polish market later this year.

YUN, known for its pioneering probiotherapeutical skincare products, and Bausch Health, a leader in the market, are combining their strengths to bring microbiome skincare solutions to new patients. The first phase of the partnership will introduce YUN's probiotic-based acne-prone skincare range to Poland later this year. These microbiome skincare solutions use live probiotics to help restore the skin's natural microbiome balance, offering a modern, science-driven approach to managing acne-prone skin. This partnership marks a significant step in expanding Bausch Health's portfolio into the emerging space of probiotherapy, a microbiome skincare approach.

"At Bausch Health, we constantly seek innovative solutions that enrich people's lives. Partnering with YUN is an exciting step forward in delivering cutting-edge microbiome technologies for acne-prone skincare in Poland, with plans to expand into other countries," said **Cees Heiman, Senior Vice President, Europe and Canada, Bausch Health**

"We're honored to partner with Bausch Health, whose strong market presence and commitment to patient well-being align with our mission to empower people and restore balance by supporting the microbiome and offering natural, effective solutions that go beyond symptoms," said **Tom Verlinden, Chief Executive Officer and Founder, YUN NV**. "This partnership validates our scientific and therapeutic vision, sharing a joint ambition to unlock the full potential of microbiome in skincare."

Both companies share a commitment to enhancing health through innovative, science-backed solutions. By joining forces, they aim to improve skin health through the science of the microbiome.
